

TRUST EDGE
LEADERSHIP INSTITUTE

Half Day Facilitation Recommended Content

Although a full-day facilitation is always recommended, it is not always feasible. In situations where your time is limited, here is our recommended sequence:

- The Case for Trust
 - Keep this short and include a full overview of all 8 pillars so participants understand the framework.
- Clarity
 - How? How? How?
 - 90 Day Quick Plan
 - Personal or Professional
 - Team
- Connection
 - Trust Shields
 - Ensuring you have adequate time for individuals to create their shields as well as share with others is important. Give yourself a bit more time than you may anticipate, especially if you are working with a group that you are less familiar with.
- Consistency

Commented [HS1]: Why is the consistency pillar mentioned here? It doesn't go with the paragraph below, does it?

We encourage you to adjust this sequence to meet your organization or clients' needs. If there are other pillars that feel more appropriate or applicable to the problem(s) that they are looking to solve for, make sure to include that pillar along with the most appropriate concept(s) under that pillar. No matter what you choose to cover, we recommend that you always include How? How? How?, 90 Day Quick Plan, and Trust Shields, then adjust other content accordingly.
